# Integrated Education Solutions

## EFFECTIVE CLASSROOMS

Start with a proven solutions provider. Audio Enhancement has over 40 years of proven success in the education environment with distributed audio. In addition to improving hearing in the classroom, Audio Enhancement expanded its success story with safety, teacher development and school-wide communication. Contact PowerUpEDU before making a buying decision for audio, video, safety, or school communication systems.

**PowerUp** EDU

**AUDIO ENHANCEMENT**

## Effective Learning with Classroom Audio

Classroom Audio Systems evenly distribute the teacher's natural speaking voice through a Teacher Microphone, so every student can hear clearly. With the Handheld Microphone and Mic360™ students are engaged in discussions and participate more.

- Boost student achievement
- Improve cognitive comprehension
- Decrease teacher fatigue

## Effective Teaching with VIEWpath

VIEWpath™ (Video Interactive Education Window) gives teachers the ability to record, store, and share their lessons. Through a teacher-controlled camera, teachers can improve their practice through self-reflection and, innovative classroom procedures. Substitutes and students can access prerecorded lessons for uninterrupted learning.

- Performance, engagement, and lesson content evaluation
- Anytime, anywhere learning
- Improved PLCs, evaluations, and coaching

## Peace of Mind with the SAFE System

The SAFE (Signal Alert For Education) System™ provides a systematic solution to communicate and diffuse problems quickly. From minor incidents to major catastrophes, with the SAFE System™, help is just a press of a button away. Teachers receive an acknowledgement notification in the form of blinking lights on their microphone receiver.

- Discreet button on the teacher microphone
- First responders receive location of alert
- Live video and audio feed of the incident with a classroom camera

## Efficient Communication with EPIC System

Audio Enhancement's EPIC (Education Paging and Intercom Communications) System™ makes schoolwide communication efficient and simple. EPIC System ensures reliable communication between administrators, teachers, and students through the school's IP network to provide full control of your school.

- Communicate with hands free classroom intercom
- Set up paging zones
- Customize bells and alerts
