

# Promethean<sup>®</sup> SWITCH & SAVE

## Is Aging Edtech Holding You Back?

75% of administrators feel they are constantly striving to innovate using technology as a tool for education. Is your school's outdated interactive whiteboard technology serving as a barrier to engagement and costing valuable teaching time and resources?

Switch out your old projector-based technology and learn all the ways you'll save with Promethean interactive displays. It's more affordable than you think.

## Discover the Savings When You Switch

### Save Money

Save money by not having to replace costly bulbs and maintain projector equipment. Promethean interactive displays have a lifespan of over 50,000 hours and are maintenance-free.

### Save Teaching Resources

Save teaching resources with engaging lesson delivery software that lets teachers import their existing resources. Promethean software and apps are included without any subscription fees.

### Save Instructional Time

Save valuable time for your teachers with an interactive display that's designed by teachers for teachers to be incredibly easy-to-use.

### Save Energy

Promethean interactive displays utilize energy efficient LED technology and use up to 35% less electricity than old projector-based systems.

# The Promethean Solution

## Award-Winning Interactive Displays and Lesson Delivery Software

Designed by teachers for teachers, Promethean's industry-leading interactive displays are transforming the front-of-classroom experience around the world. Our engaging lesson delivery software and suite of apps empower teachers to redefine how they engage students.

### A Team That's Driven to Ensure Your Success

Promethean's has created an extensive team of local reps, resellers, education consultants, and field engineers to ensure educators effectively implement immersive technologies that transform learning environments and support student achievement.

### Backed by the Industry's Premier Warranty

Promethean provides the most comprehensive standard warranty support with three years of on-site service for your classroom technology investment.
