Microsoft Remote Learning Webinar Course Descriptions

Webinar 1: Staying connected with remote learning through Microsoft Teams and Office 365

Description
This course provides educators practical ways to organize their remote learning experience in order to foster strong connections between students and teachers and keep students engaged.

Learning Targets
- Learn what is remote learning
- Understand the difference between synchronous and asynchronous learning
- Evaluate the types of assessment available in remote learning
- Plan for structuring the school day
- Explore ways to incorporate social and emotional components into a remote learning experience

Webinar 2: Keeping students engaged: Building strong student/teacher connections in a remote learning environment

Description
This course provides educators practical ways to organize their remote learning experience in order to foster strong connections between students and teachers and keep students engaged. Educators will learn how to use Microsoft Teams, Stream, OneNote Class Notebook, and Flipgrid to engage students and foster connections within the school community from afar.

Learning Targets
- Learn about the types of Teams you will need in your remote learning experience and how to create them; learn about starting a Teams call, tips for managing the call, and recording it for later review
- Examine varied methods for creating pre-recorded lessons
- Learn how to use Stream to manage and share your videos with students
- Evaluate the types of assessment available in remote learning and how Assignments and Grades in Teams support your review process
- Learn how OneNote Class Notebook can enhance the way you share resources with students as well as evaluate their understanding
- Explore how Flipgrid allows you to stay connected with your students asynchronously

Webinar 3: Accessibility, Special Education and Online Learning: Supporting equity in a remote learning environment

Description
This course provides an overview of all the accessibility tools available in Windows 10, Office 365, and other apps delivered virtually through Microsoft Teams.

Learning Targets
- Learn how Windows 10 and Office 365 can personalize learning for all students
- Explore the accessibility tools built in Windows 10 and Office 365
- Discover ways to make content accessible for all students
- Learn tips to help students transition to Remote Learning
