Why Lü?

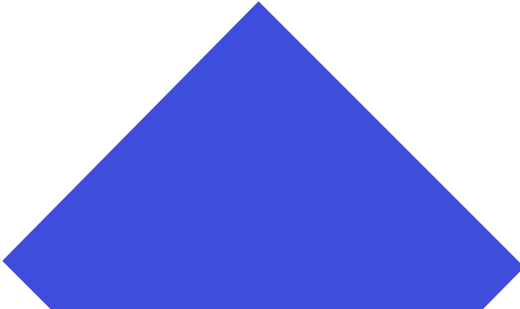

Physically active and **fit children** tend to have **better academic achievement**, better school attendance and fewer disciplinary problems.

10% of children are doing the recommended **60 minutes** of daily physical activity.

School gyms have the untapped potential of becoming one of the **most advanced, engaging and versatile learning space**.

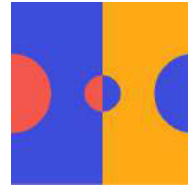

Our vision

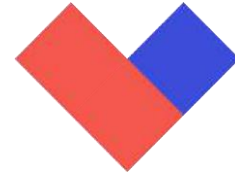

Create the next generation of learning environments
where kids are engaged on multiple levels:

Mental

Physical

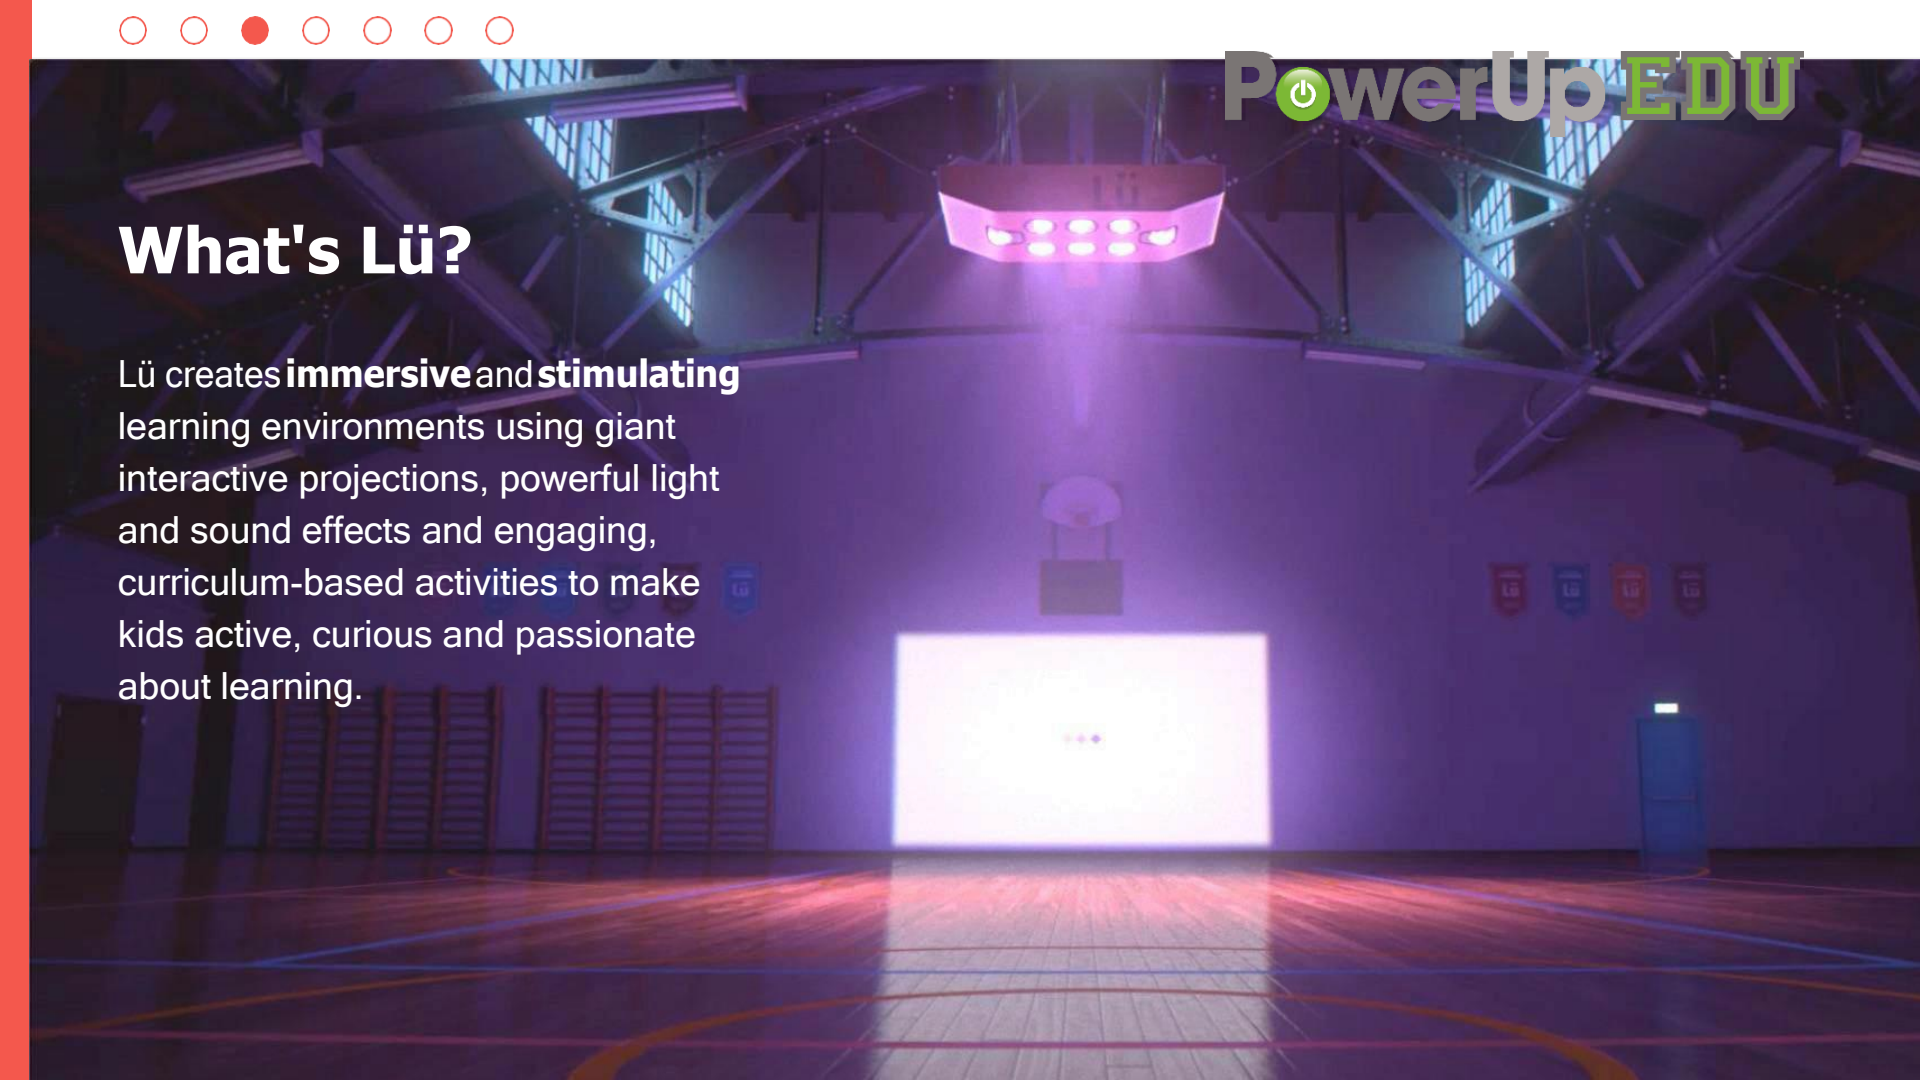

Social-emotional

What's Lü?

Lü creates **immersive** and **stimulating** learning environments using giant interactive projections, powerful light and sound effects and engaging, curriculum-based activities to make kids active, curious and passionate about learning.

Who's Lü?

- ◆ Lü is designed, built and supported by an amazing group of people based out of Quebec City, Canada. Most with backgrounds ranging from storytelling, design, education, software engineering to finance, manufacturing and logistic.

Lü is also backed by an international network of partners and collaborators for research and market development.

Success stories

Commission Scolaire Monts et Marées, Matane, Canada

"What really captivates us with Lü is the movement. We move, and we learn" says Marthe Emond, executive director of the Commission Scolaire des Monts-et-Marées in Eastern Canada. Since they installed a Lü in each of their 19 schools, the school district proudly says "this is an asset for the whole community".

Success stories

S.U.P.E.R. LEARNING CENTER, Ohio, USA

"Main thing for me is getting students engaged, all my students engaged, even the ones that are really out of shape, the ones that are not athletic" says Ed Brown, PE Teacher at the S.U.P.E.R Learning Center, a school specialized for special needs kids in Ohio. Lü allows teachers to go beyond the typical basketball nets and soccer goals.

"The lights from the Lü, the music, the screen, how its designed and how you interact with it is really helpful for kids with special needs"

Success stories

Bennett Ranch Elementary, Colorado, USA

"They want, they want, they want instead of... I guess. They want to be participating" says Ben Wells, PE Teacher at Bennett Ranch Elementary School in Colorado. Clearly Ben's class would not be the same without their Lü. As one of his student says "we're all working together and it's amazing"!

Success stories

Washington Township MSD, Indiana, USA

"The Lü transforms what a typical gym used to look like. I could not imagine a day when the Lü is not being use" says Mrs. Brittney Brown, principal at Willow Lake ES. Washington Township MSD equipped 8 of their Elementary schools with Lü. As the IT director Mike Kneebone says "There is the fun factor, but there is a lot more value there [...] when you see the curricular pieces, it is certainly money well spent".
